Journal of Engineering Mathematics **29**: 615–617, 1995

Contents of Volume 29 (1995)

Vol. 29 No. 1 January 1995

Publisher's Announcement v

C.R. Dun and G.C. Hocking: Withdrawal of fluid through a line sink beneath a free surface above a sloping boundary 1

H. Kuerten and B. Geurts: Multigrid acceleration of a block structured compressible flow solver 11

S. Rjasanow: Heat transfer in an insulated exhaust pipe 33

R. Smith: How far can a boundary coating material be carried downstream in turbulent pipe flow? 51

A.D. Fitt and P. Wilmott: A composite cavity model for axisymmetric high Reynolds number separated flow II: Numerical analysis and results 63

R. Mauri: Heat and mass transport in random velocity fields with application to dispersion in porous media 77

L.W. Schwartz and D.E. Weidner: Modeling of coating flows on curved surfaces 91

Vol. 29 No. 2 March 1995

A. Büyükaksoy and A. Alkumru: Multiple diffraction of plane waves by a soft/hard strip 105–120

P.G. Chamberlain: Symmetry relations and decomposition for the mild-slope equation 121–140

M. Fichman, D. Pnueli and C. Gutfinger: On the perturbed equations of motion of aerosol particles in regions of strong curvature of the fluid streamlines 141–160

S.R. Belward and L.K. Forbes: Interfacial waves and hydraulic falls: Some applications to atmospheric flows in the lee of mountains 161–179

S.J.D. D'Alessio and S.C.R. Dennis: Steady laminar forced convection from an elliptic cylinder 181–193

S.H. Smith: A note on the boundary layer approach to the impulsively started flow past a flat plate 195–202

EUROMECH Meetings 1995 203–204

Vol. 29 No. 3 May 1995

S.K. Wilson: The effect of an axial temperature gradient on the steady motion of a large droplet in a tube 205–217

R. Tapiéro: Calculation of microstresses in a thick non-symmetric heterogeneous plate 219–240

H.I. Abdel-Gawad: On the resonance of acoustic waves in slightly deformed and slowly moving slabs 241–253

H.M. Badr, S.C.R. Dennis and S. Kocabiyik: The initial oscillatory flow past a circular cylinder 255–269

M.A. Kelmanson: Theoretical and experimental analyses of the maximum-supportable fluid load on a rotating cylinder 271–285

S.S. Chawla: Torsional oscillations of a plane lamina in a buoyant fluid 287–295

Obituary 297

Vol. 29 No. 4 July 1995

B. Vreman, B. Geurts and H. Kuerten: A priori test of large eddy simulation of the compressible plane mixing layer 299–327

W.A. Van Der Veen and F.W. Wubs: A Hamiltonian approach to fairly low and fairly long gravity waves 329–345

K. Djidjeli, W.G. Price and E.H. Twizell: Numerical solutions of a damped Sine-Gordon equation in two space variables 347–369

A.C.T. Aarts and A.A.F. Van De Ven: Transient behaviour and stability points of the Poiseuille flow of a KBKZ-fluid 371–392

Vol. 29 No. 5 September 1995

P.B. Robinson, J.M. Boulton-Stone and J.R. Blake: Application of the boundary integral method to the interaction of rising two-dimensional deformable gas bubbles 393–412

R. Hill, J.H. Merkin and D.J. Needham: Stable pattern and standing wave formation in a simple isothermal cubic autocatalytic reaction scheme 413–436

H.T. Danyluk, B.M. Singh and J. Vrbik: The Reissner-Sagoci problem for a non-homogeneous half-space with a penny-shaped crack 437–449

H.A. Erbay and H. Demiray: Finite axisymmetric deformations of elastic tubes: An approximate method 451–472

G.H. Schmidt†: Operator weighing in a multigrid method for locally refined grids 473–496

Vol. 29 No. 6 November 1995

R. Smith: A mathematical model for the density-augmented spreading of a particle-laden discharge in a turbulent shallow-water flow 497–516

T.D. Hawkes and R.E. Craine: Modelling the creep of a pipe weld using Cosserat theory 517–535

R. Jeyakumaran and P. McIver: Approximations to sloshing frequencies for rectangular tanks with internal structures 537–556

S.D. Howison, D.F. Mayers and W.R. Smith: A dynamic simulation of the conforming shell gas journal bearing 557–574

M. McIver and U. Urka: Wave scattering by circular arc shaped plates 575–589

S. Shougen and H. Jishan: Velocity inversion for acoustic waves with wavelet operator 591–606

Euromech Meetings in 1996 and 1997 607–611
